

MERRY CHRISTMAS

Tourettes Syndrome (TS)

What you should know

Tourette Syndrome is a neurological condition characterised by involuntary movements and sounds, known as tics. It affects around 1 in every 100 school children. Alongside tics you will often find ADHD, OCD, learning disabilities and many other conditions. TS is a lifelong condition.

What we do at T.I.C.

Support and Awareness,

We offer support, and advice at our drop in, online and over the phone. **Deliver** awareness talks to schools and health/children's services. **Work** together to help encourage acceptance and social interactions. **Organise** monthly support groups and additional activities.

Time truly does fly

Scrap store

Hull scrap store kindly came along to our November meeting and created some masterpieces with the children. All the children really enjoyed themselves, nearly as much as the parents!!

We hope to be working with them in the near future.

*Welcome to T.I.C.
(Tourettes-Syndrome)*

National Lottery Community Fund

We only went and did it!

TIC has received 3 years of funding. Exciting times ahead. Thank you all for your ongoing support. 2019 has been an amazing year for TIC but I can feel 2020 is going to be the best yet!

2019 Christmas Party

We had another great turn out for the Christmas party, Santa paid a visit but unfortunately had to leave his reindeers behind. We were honoured to have 2 volunteers attend who helped our Ronan deliver playdoh and slime workshops.

Mum Lucy also brought along her candy floss machine which went down a treat with the children.

A big thank you to Bethany Nash who made all of the children lovey sweet cones as a gift for Christmas.

Merry Christmas to all
Of our members x love TIC.

A BIG THANK YOU

TO MRS FOWLER WHO DONATED £250 TO TIC

The staff at CTS shop fitting for their donation of crafts.

Our own Ellie Jackson for her donation of £30

And Wyatt Holden for all his fundraising and continued
Coin jar collection xx
