

# WHAT A START TO 2020

## Tourettes Syndrome (TS)

### What you should know

Tourette Syndrome is a neurological condition characterised by involuntary movements and sounds, known as tics. It affects around 1 in every 100 school children. Alongside tics you will often find ADHD, OCD, learning disabilities and many other conditions. TS is a lifelong condition.

## What we do at T.I.C.

### Support and Awareness,

**We offer** support, and advice at our drop in, online and over the phone. **Deliver** awareness talks to schools and health/children's services. **Work** together to help encourage acceptance and social interactions. **Organise** monthly support groups and additional activities.

## Say hello to our new activity volunteer

### Support group

Last year we welcomed Ronan as our volunteer youth group worker, we now welcome Charlotte on to the team. We do not want our kids bored during the monthly meetings, so these two volunteers work hard ensuring activities are exciting and inclusive

## Rank Foundation and OMAR Ltd

We have received £500 from each

TIC are working on a buddy club for the children, this will comprise of workshops designed to give our children the tools to grow. We are also planning something similar for our adults. Thanks to a grant from Rank and fundraising from OMAR we can now move forward with our planning.

## 2020 TIC symposium

We are currently working hard putting together all the final details for our TS symposium that will be held in Hull on June 5<sup>th</sup> -7<sup>th</sup> at Trinity Hotel on Hedon Road. We have had a really positive response from the NHS and hope to fill seats at our medical professional talk on the 5<sup>th</sup>. And seats are filling up fast for the Education talk.

For more information regarding the Symposium and how to get tickets, please contact Bev @ bevws.tic@gmail.com
