

HAPPY NEW YEAR!

Tourettes Syndrome (TS)

What you should know

Tourette Syndrome is a neurological condition characterised by involuntary movements and sounds, known as tics. It affects around 1 in every 100 school children. Alongside tics you will often find ADHD, OCD, learning disabilities and many other conditions. TS is a lifelong condition.

What we do at T.I.C.

Support and Awareness,

We offer support, and advice at our drop in, online and over the phone.
Deliver awareness talks to schools and health/children's services. **Work** together to help encourage acceptance and social interactions.
Organise monthly support groups and additional activities.

Another year, another lockdown.

2021

Unfortunately, despite us all hoping that the magic of a new year would wipe it away - Covid is still incredibly apparent in our day to day lives. It seems like we could all be in for a long ride over the next year, but please know TIC will be by your side throughout.

SANTA DROP

Visiting families in Hull, Lincs and East Riding.

Sadly, our annual Christmas party could not go ahead but not one to let people down, Santa opted to pay our members a personal visit this year. Thank you to everyone that took part, it was the highlight of our year.

WINTER WINDOWLAND

Our window painting competition was a huge success. The decision for the winners was one I am glad I did not have to make. A big thank you to High Sheriff of East Yorkshire Mr A Horncastle Esq MBE, Daniel Flemming from Humberside police and TIC chair Jane Ingram for judging. First place went to the Philpott family, runners up where the Mercer family and the Kay family.

Entry number 10
The Philpott family

Entry number 11
The Kay Family

Entry number 14
The Mercer family

A BIG THANK YOU

TO WRESTLECARES

Thank you to Danny and team for including TIC in their festive gifting. They put huge smiles on some of our children's faces (and parents) as Danny talked all things wrestling whilst delivering a box of treats. Danny shared stories of how wrestling helped him overcome challenges he faced as a young boy with TS. Danny has volunteered to do more with TIC moving forward and we are excited to see where this may go.
